

Motivation Letter for the Audit Board Position “Financial Audit”

Dear ESNers,

my name is Alina, I am 25 years old and have been a member of ESN Darmstadt since August 2019. After my exchange semester in Sweden, I was excited about everything ESN-related. Having in mind that my studies would finish some time this year, I wanted to get involved as much as possible in ESN on different levels. For this reason, I participated in two NAs, organised the LP Southwest and became a member of the Data Analysis Team in the international Network Committee.

Recently, I finished my master’s degree. Unfortunately, I will move away from Darmstadt and hence cannot stay involved on the local level. That is why, I personally see a possible position in the audit board as a way of staying involved in ESN throughout the upcoming year. Apart from that, it would also be an opportunity to get in touch with other ESNers from different sections, either digitally or hopefully in the real world on upcoming NAs. I would really like to contribute to the work of ESN Germany and see how the association is dealing with its finances in these challenging times. Getting insights into the work of the NB would be another benefit for me in the position of a financial auditor.

Why am I the suitable person for the financial audit? My undergraduate studies were in Business Information Systems. That is how I gained basic knowledge of accounting and finance subjects. Furthermore, I pursued a minor in “Entrepreneurship & Innovation” during my master’s in computer science. Therefore, I assume to have sufficient knowledge in the accounting and finance area for the work in the audit board of ESN Germany. Moreover, I was the president of a smaller student organisation who organised voluntary private lessons for pupils in need. In this position, I gained experience with the regulations on non-profit organisations.

I am looking forward to seeing you all at one of the upcoming events.

Best regards

Alina
