

## **Motivation letter for Legal Auditor**

Dear ESNers,

my name is Julius, I am 24 years old and want to apply for the Audit Board elected at the upcoming NA on Air as a Legal Auditor.

I became involved in ESN after coming back from my Erasmus stay in Bologna for one year in September 2017 in the section of Heidelberg. After going on many great trips and having amazing experiences I decided to take over more responsibility and became President of ESN Heidelberg in January 2019 and am still to this day. I joined network events in the AGM 2019 in Thessaloniki getting to know more ESNers outside of my section. As I am not running for local president or a local board position at the next elections again I am looking forward to new experiences and challenges.

I have studied law at the University of Heidelberg and finished my degree in the beginning of this year with my state exam. Since February I started my PhD in European law at the University of Mannheim. Apart from my academic background I handled legal problems while being active in president of our section, e.g. with business partners and cancelled events or regarding our new code of conduct. Therefore, together with a long history of ESN experience I think I am suitable to take over the position as Legal Auditor of ESN Germany. I am looking forward to working closer with the Auditors, the Board and the Network. Furthermore I know Monika, one of the current Legal Auditors from the beginning of my time in ESN and had the chance to discuss responsibilities as Legal Auditor with her already.

Best regards,

Julius
