

# Accountability Report: Vice-NR

*Pedro González - NB Mandate 2019/20*

Dear all,

in this report I would like to inform you about all the tasks and accomplishments I achieved during my time as Vice-National Representative in the NB 2019/20. My job as a Vice-NR was divided mainly into two areas: direct support of the National Representative (NR) and the coordination and implementation of the Causes of ESN at the National Level. For a better overview, I will address both areas separately.

## Support of the NR

- I was in constant communication with the NR to discuss current topics in the CNR and ESN International in general.
- Whenever the NR needed support in her area of work, I tried to myself as available as possible at the moment.
- For the first half of the mandate, I supported in the coordination of the International Committee (iCom) of ESN Germany.
- Attended the CLR Calls on a regular basis.
- Participated in several international events helping in the representation of ESN Germany and staying active in the plenary discussions: AGM Thessaloniki, CNR Palermo, WEP Utrecht, NBM Istanbul, CND Lisboa
- Participated as international Guest in two Italian NPs, where I presented ESN Germany and its structures, while also having a better relationship with their ESNers and gaining some helpful knowledge from their structures and way of working.

## Coordination of the Causes of ESN

- Stayed up-to-date in the most current information about the Causes and projects of ESN and forwarded the information from the international level to the local level
- Stayed in touch with our point of contact in Pernod Ricard for the Responsible Party events and helped to inform the sections on how to organize one

- Created, coordinated and managed the Working Group for the Implementation of the Causes. This Working Group was aimed to do an extensive research on how to implement the Causes of ESN to ESN Germany, since it was a relatively new concept at the moment and quite unknown to the sections. The work as head of the Working Group was mainly organizing calls with the members, preparing the tasks, reminding everyone of the steps needed to take and informing the sections about the most current updates of the working group.
- Together with the Working Group we created a Concept Note for the NP Karlsruhe and a Causes Guideline for the NA München, to help the sections on understanding the Causes better and have some ideas for events on each Cause.
- Constantly reminded everyone about [activities.esn.org](https://activities.esn.org) to register their activities and stressed the importance of it for the visibility of our work
- Held different sessions about the Causes in each National Platform/National Assembly
- Made sure the Causes and projects were not forgotten throughout the mandate

Besides this specific tasks, I was also busy with the regular NB work, such as attending the weekly calls, participating in the discussions in Slack, helping out wherever it's needed (e.g. in the evaluation of the Section Questionnaire 2019 and Drive Clean-Up) and aiding in having a friendly working environment. Should there be any questions, I would gladly answer them in the Candidate's Blog :)

This year was amazing for me: I got to learn a lot through the international level, I met incredible people and my love for ESN has never been higher. I am extremely happy to still be around for another year and do my best to help develop our network to the best of my capacities!

Cheers,

Pedro González
