

Accountability Report

Michel Böhm, Webmaster of ESN Germany 2019/2020

Dear network,

Before diving into the recollection of the past mandate, I want to thank all members of the national board, the OCs and local board with whom I had the pleasure to work with.

Among the recurring tasks of the Webmaster is the **supervision of the digital infrastructure on both national and local level**. Thanks to good communication with Local Webmasters, we have been able to nearly complete the planned and unforeseen tasks that came up during the mandate.

One of the things I am very proud of is the successfully established **IT Committee of ESN Germany**. The committee itself was created by the initiative of Local Webmasters. As we see now, a broad support in IT and related matters is a crucial aspect to keep the network running. Thanks to another initiative from my successor Christian, we were able to provide the sections with a cashless payment service (Pretix) for their events. For this we had to look for a new hosting provider, where all our digital infrastructure will be hosted in the future.

Even though it was not of primary concern, I was able to **broadcast two of the three national assemblies** on the internet. This proved to be especially valuable for the Chairing Teams of the NAs.

Unfortunately, I was not able to complete the task of the new **intranet for ESN Germany** as specified in our Action Plan. But we passed on the task to our successors and I am sure that they will be successful in completing it.

Further, the implementation of the **Events Registration System (ERS)** was also not successful. The problem are persistent technical obstacles which I could not resolve. I was supported by other IT Communities from the network, yet we were not successful to find a fitting solution.

Other daily tasks included:

- support of the national board in IT-related matters

- Maintenance of communication platforms and websites for daily work in the network, as well as National Assemblies
- Representation in the International IT Community

Events I attended during my mandate:

-NP Dresden, NP Karlsruhe, NA Munich, LP Siegen, LP Darmstadt, Transition Meeting and Midterm NB Meeting, Elective National Platform of ESN Austria, Spree Break.

I want to thank the whole network and everyone whom I had the pleasure to work with for their confidence, the loyal cooperation and the constructive collaboration.

In case I missed something in this report, do not hesitate to ask.

Thank you for reading.

Kind regards,
Michel Böhm
